

S29: IPW Analysis - Phi Stability, Lambda/Pi Adaptability, and Prevalence Changes

Overall Correlations: Phi = 0.9999 (STABLE) | Pi = 0.9958 (CAN CHANGE) | Prevalence = 0.9960 (CAN CHANGE)

Phi: Weighted vs Unweighted  
(Same Init, Averaged over All Signatures)

Pi: Weighted vs Unweighted  
(Same Init, Lambda Adapts)

Prevalence: Weighted vs Unweighted  
(All 400K, Population Demographics)
