

IPW Recovery: Correlation Scatter Plots and Difference Distributions
Even when average lambda and phi look similar, pi can differ - IPW corrects it

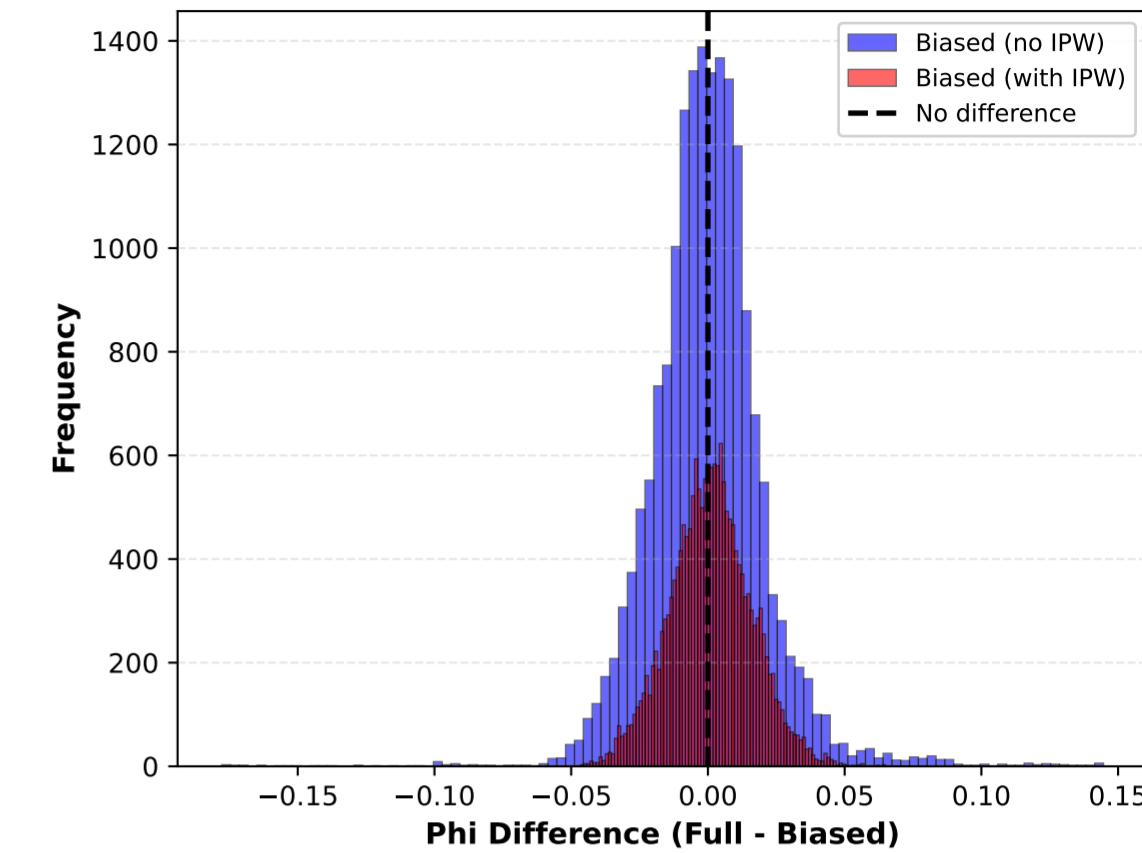

Phi: Full vs Biased (no IPW)
Correlation: 0.999961 (STABLE)

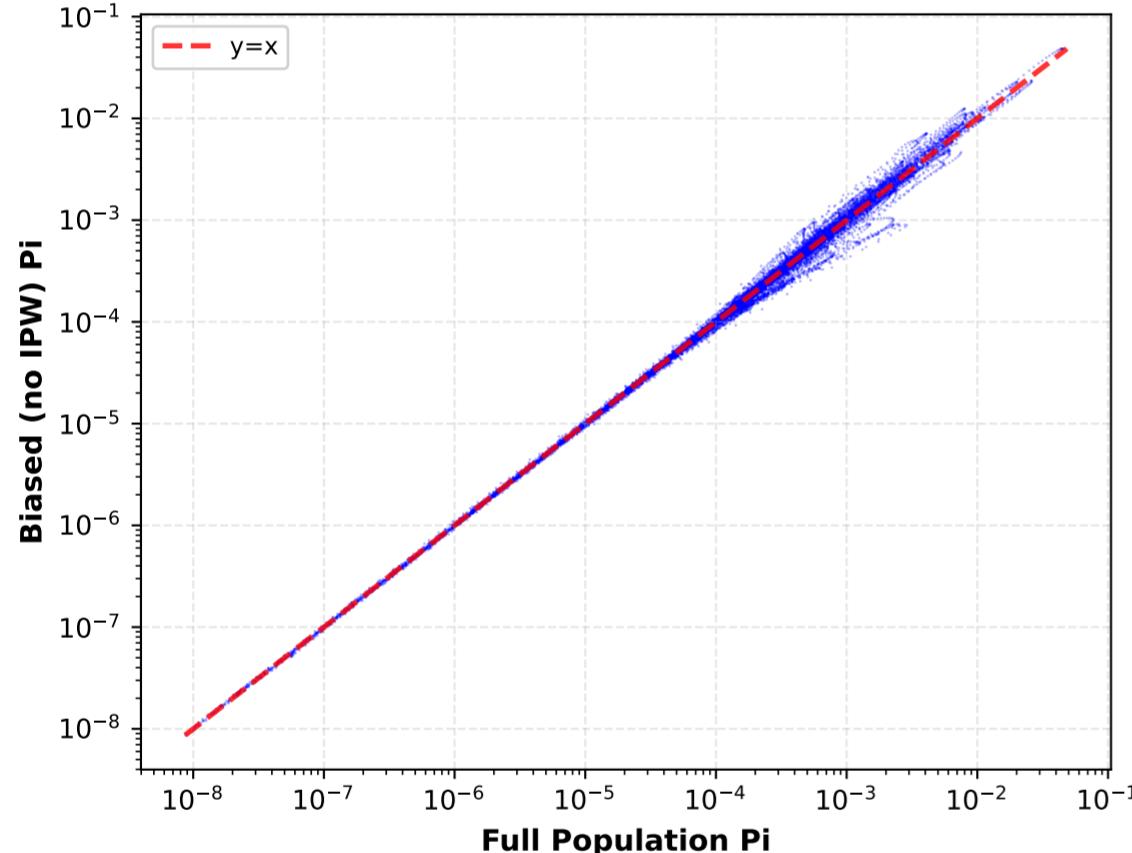

Phi: Full vs Biased (with IPW)
Correlation: 0.999980 (STABLE)

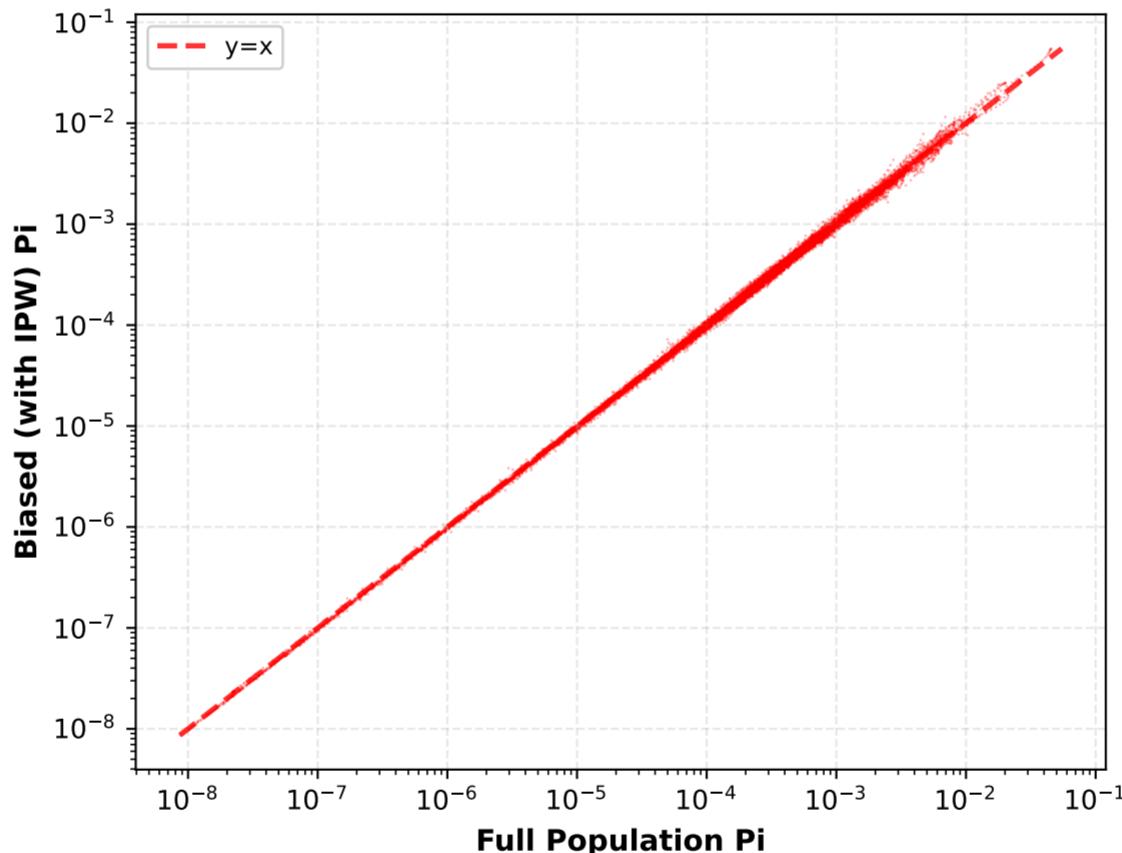

Distribution of Phi Differences
Mean (no IPW): 0.014956
Mean (with IPW): 0.011838

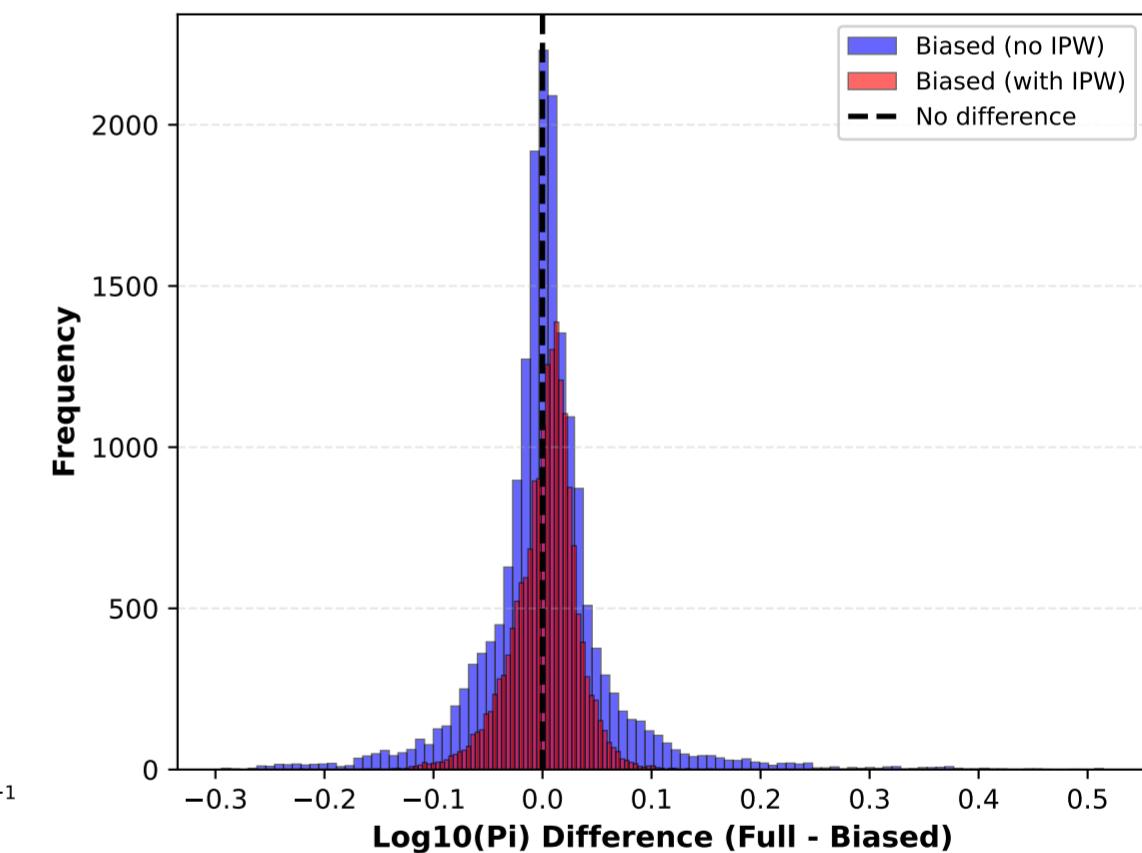

Pi: Full vs Biased (no IPW)
Correlation: 0.987407

Pi: Full vs Biased (with IPW)
Correlation: 0.993270 (IPW RECOVERS)

Distribution of Pi Differences (Log Scale)
Mean (no IPW): 0.000116
Mean (with IPW): 0.000069
